Summary

I am a detail-oriented web developer with a passion for solving problems. This is what has always drawn me to development; each day brings something new and interesting. These opportunities are a chance to learn and hone my skills and I aspire to join a team that will push me to be better.

Relevant Experience

General Assembly

Mar 2018 to Jun 2018

General Assembly's Web Development Immersive (WDI) is a 12-week long training program dedicated to give students a deep dive into the world of web development, focusing on web development tools and best practices. Projects include:

BDGT

- Full stack website created using Ruby on Rails backend and jQuery and Handlebars for creating the templates on the front end
- Allows users to set up a monthly budget and add expenses to each budget
- Each month's budget keeps track of total spent, total remaining in budget, and a visual of how money was spent
- Utilized moment.js for date formatting and manipulation and chart.js for creating of the graphs for user's expenses

Survey App

- Web app that allows users to create or take surveys once logged in. Surveys allow users multiple choice options to select from. Upon submitting their result, users can view all responses submitted for that survey
- Full stack application using MongoDB, Mongoose and Express to build the API
- Group project using GitHub to collaborate

Run Tracker

- Web app that allows users to create an account, log run distances and durations, and view all logged runs
- Full stack application built primarily using Ruby on Rails, Javascript, jQuery, HTML, CSS
- API for user authentication and storing run values
- Utilized RegEx to only allow for appropriate values in time field

Other Experience

Bon Me

Restaurant Manager

Cambridge, MA

Aug 2013 to Mar 2018

I managed a team of about fifteen members and taught them all they needed to succeed with the job, as well as how to work together as a team. Additionally, I was responsible for building and implementing training materials for all positions, ranging from management to crew member, that would be used company-wide.
